

S.K.P GOVERNMENT COLLEGE, GUNTAKAL
DEPARTMENT OF BOTANY
PEDOGOGICAL ACTIVITIES
CONDUCTED FROM 2016-17 TO 2020-21

The Department of Botany adopted the following pedagogical methods to
Conduct effective teaching learning activity so that the students can analyze,
practice, and enrich their knowledge and skills in the domain Botany.

The Activities are...

- Quiz programmes
- Ict Based Teaching Method
- Group Discussions
- Student Seminars
- Field Trips
- Vana Mahotsavam (Go green)
- Student Social Responsibility Study Projects

(P.T.O)

FIELD VISITS & BOTANICAL TOURS

As a part of Curriculum, Department of Botany frequently conducts field Visits and Botanical tours to all the 3 year B.Sc.(BZC & Microbiology) students to bring practical knowledge among them. Field trips help a lot to the students, in such a way that it reduces the gap between theoretical and practical knowledge. This method is useful to the students to have personal observation of the nature or any Scientific Institution and they try to establish linkages with the topics covered in various courses.
