The Activities are...

- Quiz programmes
- Ict Based Teaching Method
- Group Discussions
- Student Seminars
- Field Trips
- Vana Mahotsavam (Go green)
- Student Social Responsibility Study Projects

(P.T.O)

STUDENT SEMINARS (CLASSROOM LEVEL)

STUDENT SEMINARS:

This method is mainly meant for building the confidence in the student so that the student presents a topic in the classroom without any fear. It is so effective method, where the student is free enough to share the views among his/her peer group. It enhances the communication skills and presentation skills in a student and also helps in better understanding of the subject. It has been made an integral part of continuous evaluation of the student.
