

ICT Classes

In the 21st century Information and Communication Technology (ICT) has transformed many aspects of our lives to the extent that we live in an environment that is dominated by technology. More so in the field of education where ICT enabled teaching learning process has ushered in tremendous changes in the areas of sources of knowledge, storage and dissemination of knowledge. It has opened up vast horizons of knowledge to explore. ICT enabled teaching learning process not only enabled the students to experience and expand knowledge and skills but also facilitated the teaching community to assess and evaluate the performance of students, identify the areas of their needs and give them right direction. Therefore the Department of Commerce with a view to ensure the benefit of ICT enabled teaching learning process, regularly utilize the ICT infrastructure in the institutions for effective teaching learning process.
