A Report on Soft Skills Programme

Soft skills is a term often associated with a person's Emotional Intelligence Quotient, the cluster of personality traits, social graces, communication, language, personal habits, friendliness, managing people, leadership, etc. that characterize relationships with other people. Soft skills, also known as people skills, complement hard skills to enhance an individual's relationships, job performance and career prospects. It's often said that hard skills will get you an interview but you need soft skills to get -and keep - the job.

R Nagaraju, Co-ordinator Dept of Training and Placement, welcomed attendees and introduced them to resource persons during the formal inaugural session. A valedictory ceremony was held on the final day of the programme. K Gnaneswar (Principal SKP GDC, Guntakal) spoke to students about the college administration's efforts to provide SKP GDC GUNTAKAL students with cutting-edge facilities. He also announced that the placement team at the college will include student representation so that future training programmes can be tailored to the needs of the students.

WHY SOFT SKILL ?

- An awareness of the possibilities that exist, the demands they make and the rewards and satisfactions they offer.

Aspiration

- The ability to make realistic choices and plans based on sound information and on self-opportunity alignment.

Results

- The ability to review outcomes, plan and take action to implement decisions and aspirations, especially at points of transition (Kumar. A.. 2007).

In order to SOAR students need two things:

Academic Roots

-Discipline based knowledge and understanding

Academic Wings

_ The ability to enhance that knowledge and understanding with awareness (self and others). critical thinking, reflective practice.

The specificity of Soft Skills

- Discipline specific
- Placement/employability preparation
- lifelong learners

On Saturday 22nd December 2019, the department of Training and Placement of S.K.P. Government degree college. During the formal inaugural session. A Report on Soft Skills Training Programme

Soft skills are often associated with a person's Emotional Intelligence Quotient, which is a collection of personality traits, social graces, communication, language, personal habits, friendliness, managing people, leadership, and other characteristics that characterise relationships with other people. Soft skills, also known as people skills, supplement hard skills to improve relationships, job performance, and career opportunities. It's often said that hard skills get you an interview, but soft skills get you and keep the job.

During the formal inaugural session R Nagaraju, Co-ordinator Dept of Training and Placement welcomed the gathering and also introduced resource persons to the audience. Last day of programme a valedictory occasion was conducted.
