

**SKP GOVERNMENT COLLEGE; GUNTAKAL**  
**DEPARTMENT OF ELECTRONICS**  
**QUIZ**

- Quizzes play an important role in e-learning and provide an array of benefits for both the learner and the instructor.
- Quizzes improve or expanding one's knowledge of things, either general or in specific area
- Quizzing online will usually provide the user with results instantly. This is good for students because it allows them to know what they did wrong immediately, what they need to focus on, and how to improve should they have to retake the test.
- Quizzes have always been a motivator to study harder when students know that their progress will be judged upon an exam, a performance review etc. It sets a deadline for when material needs to be learned by and diligent students know they must adhere to that.
- An important note on online quizzing and testing is the ability a learner has to research the web for answers and creating tests should be done with that in mind. If something is too hard and/or a little off topic in terms of the material taught, it is likely to be researched online.
- It promotes a healthy debate amongst participants in order to learn from each other
- Quiz competitions even help build the student's soft skills.
